St. Severin: The overgrown & dying shrubs in front of St. Severin's will be removed so the front of the church can be pressure washed. The current shrubs are well over 30 years old, and are dying from the inside out. The shrubs will be replaced with new healthy shrubs and will give the church a much more appealing look. With the removal of the shrubs, the pressure washing of the church will remove the black stains that have accumulated over the last several years, and will make the church look so much better, and also preserve the stones for years to come.
