Child Protection-AI Generated Explicit Images. With the rising use of AI, explicit nonconsensual images can be generated easily & without the victim's knowledge. An offender may not even need an explicit image to work from. When threatened with explicit AI-generated images being published or distributed online, victims often succumb to demands for money, in-person meetings or worse. This can affect anyone, regardless of age or gender-but children are most at risk. The National Center for Missing & Exploited Children provides a free service called "Take it Down", that can help one remove or stop the online sharing of nude, partially nude or sexually explicit images or videos of minors. Visit <http://takeitdown.ncmec.org>. Info www.ericer.org/childprotection.
